

AquArmor Systems

AquArmor Flooring Systems represent a family of flooring systems all built using a revolutionary new water-based resin technology, AquArmor WBE. System designs include a thin film coating and a 1/16" to 1/8" decorative or solid color slurry. All systems are breathable, installed quickly, environmentally friendly and are not susceptible to problems associated with moisture from concrete. These unique systems provide the protection of historical resinous floor systems, yet are user friendly and offer insurance against loss of bond due to moisture.

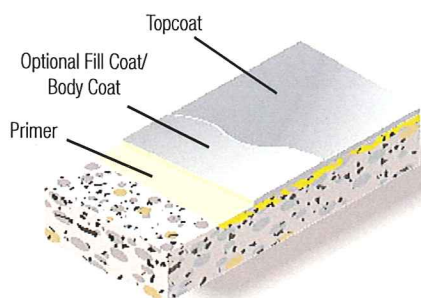

Features

- Water-based epoxies or urethanes
- Decorative or solid color with a gloss or satin finish
- Long pot life, but quick to cure
- Resistance to out-gassing, fish-eyes and CO2 entrapment
- Installation between 40° F and 95° F
- Water cleanup
- Floor and moisture mitigation system in one easy-to-use system
- No moisture testing required
- Chemical resistant
- One hundred times more breathable than standard epoxy

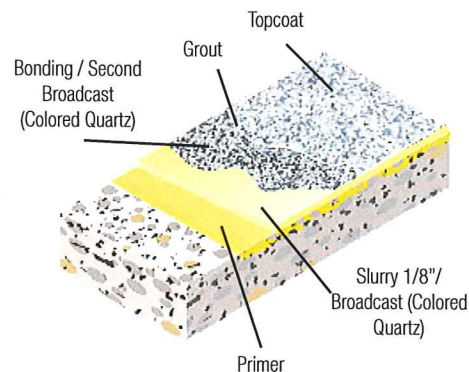

Benefits

- Not susceptible to problems associated with moisture from the concrete
- Safe to use and environmentally responsible, meeting all requirements of the Green Building Council and LEED for low-emitting materials
- Simple to use for fast installation which reduces labor costs
- Limited temperature constraints for installation compared to other epoxy or urethane systems
- No lost days for moisture mitigation system application
- Can be applied to green concrete

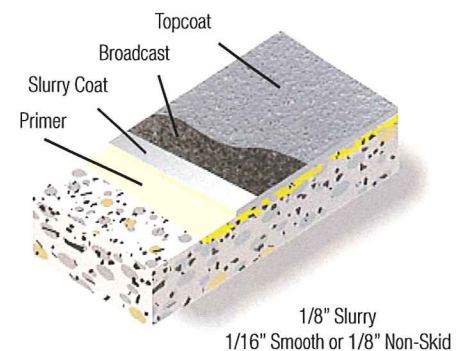

AquArmor™ "C"

AquArmor™ Ceramic Carpet™

AquArmor™ "S"

*Also available with a Decorative Mosaic finish or as HardTop for areas of high wear.

*Also available with a Decorative Mosaic finish.

AquArmor Flooring Systems™

AquArmor Flooring Systems are engineered using revolutionary water-based resin technology to provide efficient solutions to MVE challenges while meeting the performance criteria expected of traditional resinous floor systems. Offering 100 times the permeability of standard epoxy floor systems, these breathable, chemical and wear resistant materials can be used as stand-alone systems or for moisture control under other non-permeable resinous floors including terrazzo. Every product available in the AquArmor System has zero VOCs and low odor. AquArmor Systems are easy to install, allow for longer working time and can even be applied to "green" concrete without taking moisture readings. AquArmor stand-alone systems include a coating, 1/16-inch to a 1/8-inch slurry available in solid color or decorative finish options.

Projects that use AquArmor Systems

- Lockheed Martin, Akron, OH — 2007 — 280,000 sq. ft.
- Nestlé, Anderson, IN — 2007 — 300,000 sq. ft.
- Genentech, Vacaville, CA — 2007 — 90,000 sq. ft.
- Tinker AFB, Oklahoma City, OK — 2006 — 70,000 sq. ft. under Terrazzo
- Sprint Arena, Kansas City, MO — 2007 — 50,000 sq. ft. under Terrazzo
- Cherry Point Marine Base, Cherry Point, NC — 2008 — 70,000 sq. ft. under HardTop
- SolarWorld, Hillsboro, OR — 2008 — 50,000 sq. ft. 3525 Topcoat
- Northrop Grumman, Melbourne, FL — 2008 — 70,000 sq. ft. 4638 Topcoat
- Jackson Laboratory, Sacramento, CA — 2008 — 80,000 sq. ft.

A complete line of products. Market expertise. On-time distribution.

What else would you expect from a world leader in protective coatings and linings?

It starts with a complete line of time-tested, high-performance products and some of the most innovative and greenest technologies in the coatings industry. But we know that it takes more than product alone to be a world leader in protective coatings and linings. And so do the customers that rely on us every day as we help them protect their business.

That's where nearly 150 years of coatings industry experience comes in. Add to that a NACE-trained workforce with a combined 3,700 years of experience in corrosion control. And the market-specific knowledge that our experts provide to evaluate, recommend and deliver the highest-performance coatings and linings that protect our customers' assets.

It also means that we deliver on time, every time from 4,400 company-owned distribution points worldwide. Leave nothing to chance. Your single source of supply. Sherwin-Williams.
