Day 3 - 8:00 am – Noon (optional hands-on training using the GP materials)

The Sherwin-Williams Company is pleased to announce that it will be hosting SSPC's "C-10 Concrete Floor Coating Basics" training course see schedule above at the Sherwin-Williams manufacturing facility in Cincinnati, Ohio. The C-10 course is a component to the SSPC QP-8 Certified Concrete Coating Contractor Program. As the industry raises the bar for quality installation contractors, owners and specifiers will be requiring SSPC QP-8 Certification. **Sherwin-Williams endorses completion of the C-10 course to qualify contractors to purchase General Polymers Brand materials. Successful installations are then required to become an Approved General Polymers contractor (contact your local representative for further details).** **The SSPC cost is \$595 for members and \$795 non-members. Subject to change.**

#### **After attending this course, you will be able to:**

- \* Recognize the basic properties of concrete.
- \* Identify the procedures involved in inspecting, documenting, and preparing for an installation.
- \* Detect substrate defects that must be repaired before coating/surfacing.
- \* Employ surface preparation techniques based upon the requirements of the system to be installed.
- \* Describe how to apply/install coatings/surfacings to concrete floors.
- \* Evaluate contractor quality control of work.

SSPC presents an impressive schedule of training and certification courses at locations throughout the country. All of the courses are hosted/sponsored by member facilities and local SSPC chapters – as opposed to being held at public locations such as hotels. This new model will allow SSPC much greater flexibility in expanding its schedule of training and certification programs and bringing them to a wider audience.

**To register for SSPC training courses, call toll-free - 877-281-7772, ext 2202. Limited space, less than 8 attendees, class will be cancelled.**

**For more information on SSPC Training and Certification Programs, please contact Jennifer Merck, Training and Technical Program Specialist toll-free at 877-281-7772, ext 2221 or [merck@sspc.org](mailto:merck@sspc.org).**
